Wingsmaster Series - Video in Action

## Win a flock of Ornithopters for fantastic flying fun!

Following the phenomenal success of the original Picoo Z micro chopper, Silverlit's new Wingsmaster Series of mechanical ornithopters are currently at the forefront of the infra-red revolution for Christmas 2008!...

Featuring a realistic flapping movement with two pairs of wings for super stable flight characteristics, and a unique 'Hummingbird' style hovering capability.

Easy to fly indoors or outside in calm conditions, using conventional rudder control combined with proportional throttle to make them extremely manoeuvrable in the smallest of spaces

Flying Toys innovative I-Bird, I-Wings Robot & I-Fairy are fun for all the family to fly, and are available on infra-red bands A, B & C to allow all three styles to be flown together.

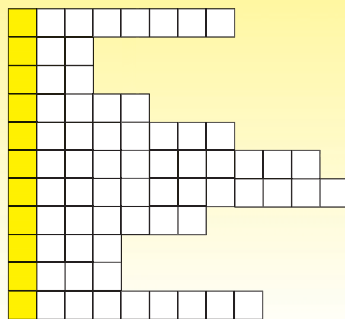

Incorporating a lightweight Lithium Polymer battery, providing amazing flights of ten minutes or more, whilst recharging in less than half an hour with the portable charger provided.

Each lucky winner will also receive three new Silverlit I-R Boosters, to double the range to fifty feet!...

### CHRISTMAS COMPETITION!

Win a superb Wingsmaster Series I-Bird, I-Wings flying Robot & I-Fairy Ornithopter for fantastic family fun. Worth £89.97 for all three, plus a free set of Silverlit I-R Boosters!...
