

FEATURE

JAMARA COLLECTION

from Flying Toys

NEW FOR 2009 FLYING TOYS IS TO DISTRIBUTE AN EXCLUSIVE COLLECTION OF READY TO FLY REMOTE CONTROLLED MODELS FROM JAMARA. HERE WE TAKE A LOOK AT WHAT THEY HAVE TO OFFER

Flying Toys is already well known as the distributor of the extremely popular and successful Silverlit Picoo Z range of sub-micro model helis. The company has now added some new models from German manufacturer, Jamara. The Jamara Collection includes a number of interesting models that will complement the Picoo Z range and further enhance Flying Toys' reputation for supplying some great fun helicopters. We will be exploring the features of these new models in more detail over the next few months, but for now here's a taste of what they have to offer.

More info

All these exciting new Jamara helis are available from good model, toy and hobby shops. For more information contact Flying Toys on 01 702 295110 or visit www.flyingtoys.com

ALVIS

Entry level Helicopter, particularly recommended for beginners. Fly forwards or backwards, turn left or right, and take off and land upon command using full proportional control. Easy to fly coaxial indoor infrared three-channel micro chopper conveniently charged direct from the transmitter.

TECH SPEC

Alvis

ROTOR DIAMETER: 180mm
LENGTH: 170mm
WEIGHT: 20g
CHARGING TIME: 20-30 minutes for full charge
FLIGHT DURATION: Approximately 5-10 minutes
SRP: £34.99

AIRWOLF

This masterpiece of miniature engineering admirably captures the appeal of this famous military chopper, yet may be flown in the smallest of spaces with its precise three-channel control. Easy to fly coaxial indoor infrared micro helicopter that's charged direct from the transmitter.

TECH SPEC

Airwolf

ROTOR DIAMETER: 165mm
LENGTH: 170mm
WEIGHT: 22g
CHARGING TIME: 20-30 minutes for full charge
FLIGHT DURATION: Approximately 5-7 minutes
SRP: £34.99

BELL 222

A remarkably detailed version of this popular commercial chopper that offers outstanding performance, for both beginners and confirmed rotary wing enthusiasts. Easy to fly coaxial indoor infrared three-channel micro helicopter that is conveniently charged direct from the transmitter.

TECH SPEC

Bell 222

ROTOR DIAMETER: 165mm
LENGTH: 170mm
WEIGHT: 22g
CHARGING TIME: 20-30 minutes for full charge
FLIGHT DURATION: Approximately 5-7 minutes
SRP: £34.99

RANGER

With a sensational LED lighting system, the Ranger is particularly eye catching, and superb for flying in the dark. Featuring an incredibly detailed injection moulded body, this easy to fly coaxial indoor infrared three-channel micro chopper is charged direct from the transmitter.

TECH SPEC

Ranger

ROTOR DIAMETER: 170mm
LENGTH: 155mm
WEIGHT: 21g
CHARGING TIME: 20-30 minutes for full charge
FLIGHT DURATION: Approximately 5-7 minutes
SRP: £39.99

COASTGUARD CHINOOK

The full size Chinook helicopters are real workhorses, able to carry huge loads for delivery wherever these are wanted. This Chinook Coastguard chopper is probably the smallest in the world, yet still offers a remarkable specification for its size. Featuring a detailed injection moulded body, twin coaxial rotors and precise three-channel infrared proportional control.

TECH SPEC

Coastguard Chinook

ROTOR DIAMETER: 145mm
LENGTH: 165mm
WEIGHT: 45g
 3.7V LiPo 185mAh battery & UK mains charger
CHARGING TIME: 20-30 minutes for full charge
FLIGHT DURATION: Approximately 7-10 minutes
SRP: £49.99

MILITARY CHINOOK

This camouflaged micro Chinook offers sensational handling, sufficient to satisfy any indoor flying enthusiast's demands. Currently the tiniest Chinook Chopper in the world, whilst still providing exceptional performance for a helicopter so small. Featuring a detailed injection moulded body, twin coaxial rotors and precise three-channel infrared proportional control.

TECH SPEC

Military Chinook

ROTOR DIAMETER: 145mm
LENGTH: 165mm
WEIGHT: 45g
 3.7V LiPo 185mAh battery & UK mains charger
CHARGING TIME: 20-30 minutes for full charge
FLIGHT DURATION: Approximately 7-10 minutes
SRP: £49.99

SPORTY

An easy to fly three-channel coaxial chopper that's more compact than most models in this class. May be safely flown indoors after just a few minutes practice, as well as outdoors in calm conditions.

TECH SPEC

Sporty

ROTOR DIAMETER: 255mm
LENGTH: 300mm
WEIGHT: 85g
 3.7V LiPo 185mAh battery & UK mains charger
CHARGING TIME: 30-60 minutes for full charge
FLIGHT DURATION: Approximately 7-10 minutes
SRP: £79.99

SIMPLY

Superb stable performance indoors, and simply sensational when flown outside with plenty of space. Equally suitable as a step up from the simpler infrared micro helicopters for beginners, as for keen enthusiasts too.

TECH SPEC

Simply

ROTOR DIAMETER: 345mm
LENGTH: 330mm
WEIGHT: 165g
 7.4V LiPo 850mAh flight battery & UK mains charger
CHARGING TIME: 40-60 minutes for full charge
FLIGHT DURATION: Approximately 7-10 minutes
SRP: £89.99

ALUTEC

A distinctive three-channel coaxial chopper with many components made from high quality aluminium, setting it apart from other models with similar specification. Outstanding stability and precise performance.

TECH SPEC

Alutec

ROTOR DIAMETER: 330mm
LENGTH: 355mm
WEIGHT: 171g
 3.7V LiPo 1000mAh flight battery & UK mains charger
