

# Christmas chopper competition

THANKS TO FLYING TOYS, THIS CHRISTMAS WE ARE ONCE AGAIN OFFERING ONE LUCKY ROTORWORLD READER THE CHANCE TO WIN A COMPLETE PACKAGE OF THIS YEAR'S TOP TEN FUN MODEL HELICOPTERS IN OUR LATEST EASY TO ENTER COMPETITION

**Prize package worth over £400**

TO FIND OUT MORE ABOUT THESE AND THE FULL RANGE OF SILVERLIT R/C HELICOPTERS VISIT [WWW.FLYINGTOYS.COM](http://WWW.FLYINGTOYS.COM) **Silverlit** **FLYING TOYS LTD** [www.flyingtoys.com](http://www.flyingtoys.com)

**FORTRESS 3ch R/C GYRO Helicopter**  
SRP: **£69.99**

The futuristic R/C Fortress is the latest addition to Silverlit's collection of larger helicopters and is considered particularly suitable for operation outdoors in calm conditions, inside a sports hall or similar size space. Offering stunning styling and top of the range flagship specification that includes an electronic heading lock piezo gyro system that will hold the chopper on course, whilst flying both forwards or backwards.

**BLACK HAWK DELUXE 3ch R/C GYRO**  
SRP: **£49.99**

Officially licensed by the Sikorsky Aircraft Corporation, Silverlit's stunning scale Black Hawk helicopter features an incredibly detailed injection moulded body, a complex counter balanced rotor assembly, and looks remarkably realistic in the air! A little larger than Flying Toys current infra red Black Hawk chopper, this deluxe version incorporates full three channel radio control and a sophisticated gyro system, for superb directional stability.

**Z-CENTURY 4ch I-R GYRO Helicopter**  
SRP: **£39.99**

Flying Toys' futuristic new Z-Century four-channel infrared remote control helicopter looks fantastic, and incorporates a sophisticated electronic heading lock gyro system for directional stability. Using technology normally associated with much larger more expensive models, now the pilot can take off, hover and descend, spin left and right, fly backwards, forwards and even sideways too!

**AIR BULLET 3ch I-R**  
SRP: **£29.99**

Silverlit's three-channel infrared Air Bullet offers the latest specification, featuring a superbly styled injection moulded body, brilliant build quality, and an innovative balance adjuster to make the helicopter progress forward faster or slower. Made of remarkably robust impact resistant rigid plastic, whilst incorporating a red flashing power indicator, and switchable blue LED searchlight for flying in the dark.

**SKYWAVE RIDER 3ch I-R**  
SRP: **£29.99**

Silverlit's versatile three-channel Skywave Rider will taxi on a smooth surface, and steer left and right. Switch to helicopter mode by pressing the set top button to take off, spin in either direction, hover and descend with three modes of forward movement. Featuring a composite moulded body made of durable rigid plastic and lightweight foam, combined with proportional throttle, a flight trimmer and rear stabilising fin for precise control.

**HUGO MICRO HELICOPTER 2ch I-R**  
SRP: **£24.99**

Flying Toys' innovative Hugo micro helicopter has been cleverly designed to fit inside its own transmitter, for charging and safe storage between flights, that can be conveniently clipped onto a belt for hands free transportation. Recognised by The Guinness Book of Records as 'The smallest remote controlled model helicopter in the world', it's capable of an outstanding indoor performance for its size, and will simply amaze spectators.

**HELI-RACER Car & Chopper Combo 3ch I-R**  
SRP: **£49.99**

Flying Toys' tip for top toy this Christmas, the remarkable Heli-Racer incorporates all the fantastic features of the The Gadget Show's favourite Heli-Mission, now offered as a futuristic car and helicopter combo. Silverlit's three channel Heli-Racer chopper will take off from the car upon command, with remote controlled opening and manually closing sliding doors, accompanied by LED lights and audible sound effects.

**BELL 222 3ch I-R GYRO Helicopter**  
SRP: **£39.99**

Officially licensed by both Boeing and the Bell Helicopter Corporation, Flying Toys' brilliant Bell 222 is bound to attract favourable attention from micro helicopter fans, featuring an electronic heading lock gyro system for superb directional stability. Undoubtedly one of the most popular commercial choppers in the world, the Bell 222 is perhaps better known by modellers for its famous military counterpart the Airwolf.

**TWIN HURRICANE/GYRO TANDEM-Z 3ch I-R**  
SRP: **£49.99**

Introducing Silverlit's latest version of their Chinook style twin rotor chopper, the new Twin Hurricane replaces the original Tandem-Z, and now incorporates a sophisticated electronic gyro directional stability system providing the best possible specification and performance. The impressive injection moulded rigid plastic fuselage is particularly detailed, and far more realistic than previously possible.

**Z-BRUCE 4ch I-R GYRO Helicopter**  
SRP: **£39.99**

Silverlit's sensational new Z-Bruce helicopter looks remarkably realistic in the air, and features their latest four function infra red control system, incorporating an electronic heading lock gyro for exceptional directional stability. Using technology normally associated with much larger more expensive models, now the pilot can take off, hover and descend, spin left and right, fly backwards, forwards and even sideways too!
